## KEENE WHITE SOX BUMPED.

Winchester A. A. Puts Them to Sleep  
with 11-to-2 Lullaby.

KEENE, N. H., Sept. 3.—The Keene White Sox went up against the Winchester A. A. team at the Emerald street grounds Sept. 1 and were humbled to the tune of 11 to 2. The local team was completely outplayed. The Winchester club scored four runs in the first inning by hard and consistent hitting and finally drove Auger from the box in the fourth inning. He was relieved by Knox, who received similar treatment, the Winchester team scoring in each inning thereafter. Lowney, the

Winchester pitcher, had 12 strikeouts to his credit in the seven innings he pitched and at no time had to extend himself. The game was featured by the battery work of Lowney and Kenney and the all-round playing of the Winchester club.  
Batteries—Lowney and Kenney; Auger, Knox and Powers.

VERMONT FRUIT  
BRINGS GOOD PRICES

Castleton Apple Grower Expects to Get  
from \$10 to \$14 a Barrel for  
Fancy Goods.

RUTLAND, Sept. 3.—There seems to be little fear, according to local apple growers that Vermont will have to revert to an apple pie week or apple selling slogans as is being done in New York to market an abundant harvest of apples. Reports coming from the apple belt of that state say that buyers are offering only \$1.50 a barrel for the fruit which does not cover the cost of picking. The crop is excessive in New York this fall.

In this section of Vermont there will be a good crop of apples this fall, but not so over bountiful as is the crop sometimes in "apple year". Few apple growers have yet contracted for the sale of their fruit, but the signs are that they will get tuppence prices for it, when the time comes for marketing. Buyers are just beginning to go through the state making contracts, but few as yet have been secured.

According to R. R. McRae of Castleton, who raises nothing but first class fruit in his orchard of 12,000 trees, the men who are being offered only \$1.50 a barrel for their apples are men whose orchards are not kept in such a condition that their fruit might be called "fancy fruit". Recent buyers from Boston are offering in Vermont orchards where fancy fruit is grown \$2.75 to \$3 a bushel for Alexander apples, \$3 to \$3.25 a bushel for Wealthy apples and \$3.25 to \$3.50 a bushel for McIntosh Red apples. The New York market according to Mr. McRae usually offers between \$2 and \$3 more than the Boston market.

Mr. McRae, who will harvest about 2,000 barrels this fall, expects to sell them all at prices ranging from \$10 to \$14 a barrel and says that any grower who has fancy fruit can do the same. New York buyers are seeking fruit of such variety to be shipped to England where it is sold at \$16 a barrel. It is a little early yet to tell at just what price fruit will go, but the local growers are assured that their fruit will go at prices as high as, if not higher, than those of last year, despite the fact that this year the fruit is more plentiful.

## WILL NOT STOP AT BOUNDARIES.

Polish Government Will Fight Wherever It Is To Its Advantage.

WASHINGTON, Sept. 3.—Poland has declined to jeopardize her military operations against the Bolsheviks by binding herself to regard the "artificial boundaries" laid down at the peace conference. Replying to Secretary Colby's suggestion that Poland remain within the lines specified by the peace conference, the Polish government states its position as follows:

"Notwithstanding the sympathetic attitude of our allies, the Polish nation had to face the danger alone, and political events proved that it must in the first place rely upon its own military strength. If military operation necessitated the measures to prevent a renewed invasion of Poland, it could hardly be considered fair that artificial boundaries that do not bind one opponent should interfere with the military operations of the other."

About 14,000,000 families in the United States own their own homes.

## Long Telephone Conversations

Many telephone users hold the lines for an unnecessarily long period of time.

Long telephone conversations result in the delay and annoyance of repeated busy line reports, particularly in connection with party lines.

Limiting conversations to as short a time as possible, and giving up a party-line when requested to do so, will assist in maintaining good telephone service.
